*Common stains including but not limited to lipstick, milk, tea, coffee and egg yolk

EFFECTIVE SOLUTIONS FOR ALL YOUR OFFICE SPACES

Our Pro Solutions are designed to make exceptional hygiene easier, meaning less effort to keep all your work areas, communal kitchens, and washrooms cleaner and more inviting.

Office desks can be dirtier than toilets

The typical office desk harbours more than 10 million bacteria, 400x more germs than found on a standard toilet seat.*

Desks harbour illness-causing germs

According to one study, 90% of workers report increased productivity in a clean work environment.**

Pleasant scents can boost moods

Using hygiene products together with education has been proven to prevent the spread of infection by 77%.***

DESK SPACES

Offices have many frequently touched surfaces, such as laptops, keyboards, and desks, which swiftly amass dirt and bacteria.

Shockingly, the average office desk can harbour a staggering 400 times the number of viruses and bacteria found on an average toilet seat.*

So, taking proactive measures is critical to maintaining a clean environment.

1. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning.

2. Soft Surfaces

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria on soft surfaces like sofas, cushions, chairs, armchairs etc.

3. Carpets

Apply **Vanish Carpet Care** on carpeted areas to remove stubborn stains and odours, leaving carpets clean and fragrant. **Carpet Care & Vacuum Foam** removes three times more dirt vs vacuuming alone.

4. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as desks and tables.

Dettol Multi Purpose Cleaner Citrus Refill is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

5. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

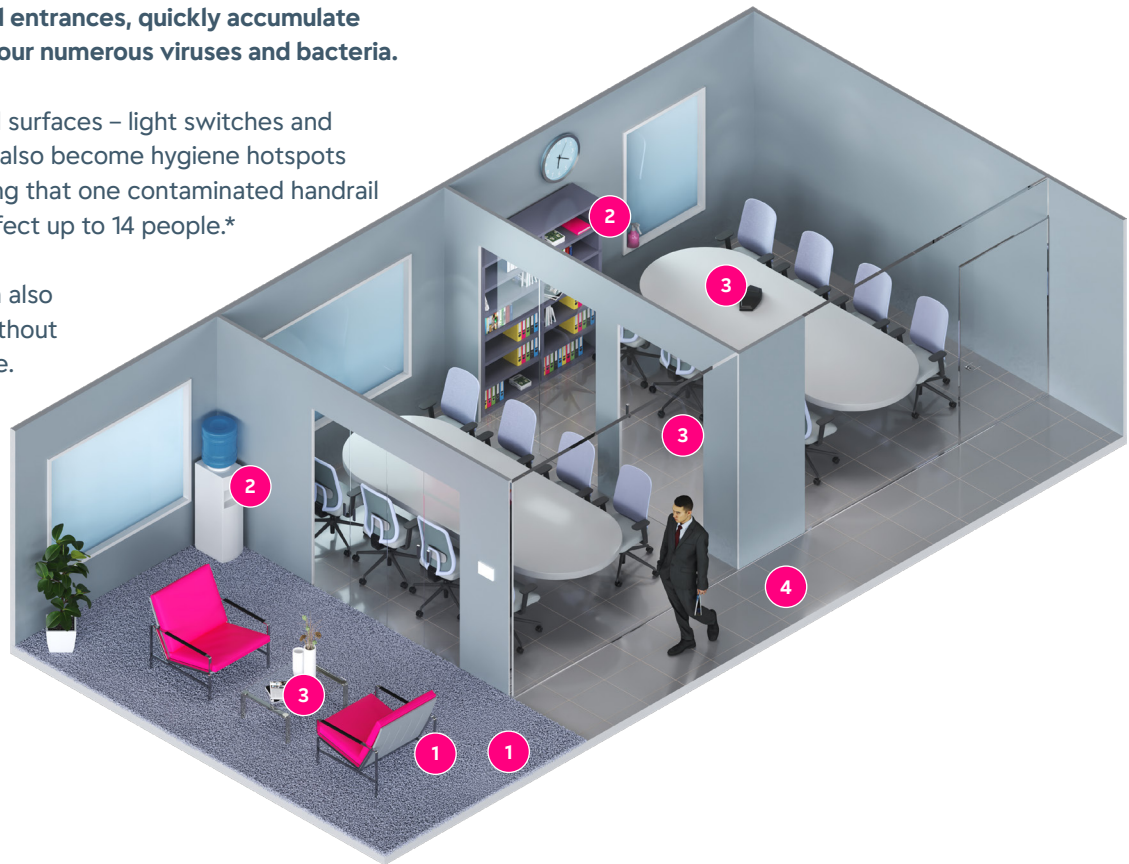

*Arbogast 2016 cites: Gerba CP via personal communication. Germs in the workplace. An unpublished observational study conducted at the University of Arizona. 2013

COMMUNAL AND MEETING ROOMS

A higher volume of traffic means office areas, such as meeting rooms and entrances, quickly accumulate dirt and often harbour numerous viruses and bacteria.

Frequently touched surfaces – light switches and door handles – can also become hygiene hotspots with studies showing that one contaminated handrail could potentially infect up to 14 people.*

Carpeted areas can also pose challenges without exceptional hygiene.

1. Carpets & Armchairs

Apply **Vanish Carpet Care** on carpeted areas to remove stubborn stains and odours, leaving carpets clean and fragrant. **Carpet Care & Vacuum Foam** removes three times more dirt vs vacuuming alone.

2. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning. Can be used for water coolers, door handles, phones etc.

3. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as desks and tables.

Dettol Multi Purpose Cleaner Citrus Refill is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

4. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

WASHROOMS

Without exceptional hygiene, office washrooms can serve as hotbeds for viruses and bacteria with toilets being among the dirtiest areas presenting significant cleaning challenges.

In fact, 86% of people believe that poorly managed washrooms could cause them to have a negative perception of a company.*

Our superior products contain hydrochloric acid that is proven to be the most effective at breaking down limescale buildup.

Unpleasant odours often plague washrooms reduce comfort for customers and staff but, again, our products can help.

1. Toilet Bowls, Cubicles & Urinals

Use Harpic Power Plus Toilet Bowl Cleaner for removal of the six most common toilet stains: limescale, soil, urine, rust, dirt and vomit. With its powerful formula Harpic is 10 times more effective than bleach on limescale and stain removal.

Use Dettol Power & Pure Bathroom Cleaner to kill 99.9% of viruses and bacteria on basins and taps**, giving your washroom a sparkling clean and a refreshing fragrance.

Use Dettol Big & Strong Bathroom Wipes to help you tackle various dirt, spills and stains for a more hygienic environment in washrooms. No need to spray first – just wipe and achieve quick, fast and effective cleaning.

1. Toilet Bowls, Cubicles & Urinals

The New Harpic Hygienic Fresh Sticker Adhesive Toilet Block sticks discreetly to the toilet bowl and provides a boost of scent with every flush up to 2 weeks of use.

The Harpic Power Plus Deep Cleaning Toilet Tabs reaches where the brush can't and removes 100% of limescale while killing 99% of bacteria. It is suitable for use in septic tanks as well.

2. Tiles & Hard Surfaces

Dettol Mould and Mildew Remover is formulated with a powerful bleach to be tough on mould, limescale and soap scum and suitable to use on ceramic tiles, grout, windows, stainless steel, chrome, acrylic bathtubs and showers.

3. Hard Floors

Use Dettol Antibacterial Multi-Action Cleaner to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

*CleanLink survey December 2010. **Not compatible with copper.

KITCHENS

A busy shared kitchen serves as a bustling hub for employees and potentially a breeding ground for bacteria, which can sometimes lead to staff illness.

Grease can also be difficult to remove – formulas that break down grease easily should be used, particularly hard surfaces like fridges, cupboards and worktops.

We can help staff feel more confident about preparing food, making drinks, and eating meals and snacks.

1. Soft Surfaces & Dustbins

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria on soft surfaces like sofas, cushions, chairs, armchairs etc.

2. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning.

3. Hard Surfaces

Dettol Power and Pure Advance Antibacterial Kitchen Cleaner spray are ideal for tackling tough kitchen cleaning tasks. This kitchen cleaner has active ingredients which break down into water and oxygen leaving nothing but sparkling surfaces and a pleasant fragrance.

4. Dishwashing

Use **Finish Dishwashing Tabs Range** to effectively remove Top 5 Common stains in office kitchens including tea, coffee, orange juice, Lipstick & egg yolk.

Use **Finish Salt** to prevent harmful limescale buildup in your machine. Choose **Finish Rinse Aid** for a brilliant shine saving you time and effort in rewashing and wiping. Use the **Finish Dishwasher Cleaner** to deep clean the parts of the dishwasher you can't see and removes grease and limescale build up in the pipes.

5. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

6. Tables & Counter Tops

Dettol Antibacterial Surface Cleanser is a surface spray that kills 99.9% of bacteria & viruses*, including E. coli, salmonella, MRSA and the flu virus. This effective antibacterial spray is a non bleach, no taint and no odour solution that can be used on food preparation areas, highchairs and many more surfaces
