EXCEPTIONAL SOLUTIONS FOR HOSPITALITY SPACES

Whatever kind of business you have, and whether it's communal spaces, washrooms, or kitchens, our solutions help you deliver exceptional hygiene easily and efficiently.

Dirty dishes deter repeat customers

A survey of diners found that unclean dishware was the most common reason for not returning to a restaurant.*

Poor hygiene makes guests leave

80%

of people say they would leave a hotel if it didn't meet their own cleanliness or hygiene standards.**

RECEPTIONS

Your first point of contact is a magnet for dirt. So, it's essential that busy hotel receptions maintain outstanding hygiene practices across reception desks, key cards and luggage trolleys.

Additionally, continuous foot traffic on both carpeted and hard surface floors leads to dirt, stains and germs – highlighting the demand for truly exceptional hygiene. It's the only way to ensure guests enjoy a welcoming experience.

1. Carpets & Upholstery

Apply **Vanish Carpet Care** on carpeted areas to remove stubborn stains and odours, leaving carpets clean and fragrant. **Carpet Care & Vacuum Foam** removes three times more dirt vs vacuuming alone.

Apply **Vanish Gold Oxi Action Carpet & Upholstery Stain Remover Spray** on reception sofas, armchairs etc to ensure exceptional stain removal action along with ensuring that the fabric and upholstery remain fresh and fragrant.

2. Soft Surfaces

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria on soft surfaces like sofas, cushions, chairs, armchairs etc.

3. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as desks and tables.

Dettol Multi Purpose Cleaner Citrus Refill is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

4. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

BEDROOMS

Hotel rooms should always be inviting, but they contain numerous high-touch zones frequently handled by numerous guests, so they swiftly accumulate dirt, stains and germs.

Also, the steady flow of guests contributes to the buildup of dirt stains and germs on both carpeted and hard surface floors. Thankfully, we'll help you maintain exceptional hygiene through regular cleaning and sanitising that's both effective and easy.

1. Carpets & Upholstery

Apply **Vanish Carpet Care** on carpeted areas to remove stubborn stains and odours, leaving carpets clean and fragrant. **Carpet Care & Vacuum Foam** removes three times more dirt vs vacuuming alone.

2. Soft Surfaces

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria on soft surfaces like sofas, cushions, chairs, armchairs etc.

3. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning. Can be used on coffee machines, POS machines etc.

4. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

KITCHENS

With cutlery, cups and plates being used almost continually, maintaining spotless, sparkling, and streak-free dishware to exceed customers' high expectations is vital.

Especially when you consider that four in five guests would consider leaving a hotel if cleanliness and hygiene standards were below their accepted standards.* We can help you achieve exceptional kitchen hygiene easily.

1. Dishwashers

Use **Quantum Professional Dishwasher Detergent & Glasswash Detergent** to remove the five most common dishware stains**, even on short cycles.

Use **Quantum Rinse Aid** to enhance your dishwashing performance. It will tackle wet spots and speed up the drying process, giving 5-star service results.

Quantum Professional Dishwasher Salt is designed for dishwashers to soften water and protect them from the negative effects of hard water. Without Dishwasher Salt, hard water can leave limescale residues in your dishes.

1. Dishwashers

Quantum thermorform tabs are effective at removing the top 5 stains in your kitchen.** There is no need to pre-rinse, saving you time, money and energy.

2. Hard Surfaces

Use **Dettol Power & Pure Kitchen Spray** to ensure 100% grease removal and disinfecting power, leaving your kitchen hygienically clean and sparkling.

3. Dustbins

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria present on dustbins and trashcans in the kitchen.

4. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

*Direct365 2016 survey. **Lipstick, tea, egg yolk, minced meat and wine.

WASHROOMS

Studies show that 86% of people develop a negative perception of a company with poorly managed restrooms.*

And with washrooms in constant use, it's all too easy for them to attract limescale, stains, germs and unpleasant odours. Yet maintaining impeccable hygiene couldn't be easier thanks to our Pro Solutions. We believe every hospitality venue should have a sparkling reputation.

1. Toilet Bowls, Cubicles & Urinals

Use **Harpic Power Plus Toilet Bowl Cleaner** for removal of the six most common toilet stains: limescale, soil, urine, rust, dirt and vomit. With its powerful formula Harpic is 10 times more effective than bleach on limescale and stain removal.

Use **Dettol Power & Pure Bathroom Cleaner** to kill 99.9% of viruses and bacteria on basins and taps**, giving your washroom a sparkling clean and a refreshing fragrance.

Use **Dettol Big & Strong Bathroom Wipes** to help you tackle various dirt, spills and stains for a more hygienic environment in washrooms. No need to spray first – just wipe and achieve quick, fast and effective cleaning.

1. Toilet Bowls, Cubicles & Urinals

The New Harpic **Hygienic Fresh Sticker Adhesive Toilet Block** sticks discreetly to the toilet bowl and provides a boost of scent with every flush up to 2 weeks of use.

The **Harpic Power Plus Deep Cleaning Toilet Tabs** reaches where the brush can't and removes 100% of limescale while killing 99% of bacteria. It is suitable for use in septic tanks as well.

2. Tiles & Hard Surfaces

Dettol Mould & Mildew Remover is formulated with a powerful bleach to be tough on mould, limescale and soap scum and suitable to use on ceramic tiles, grout, windows, stainless steel, chrome, acrylic bathtubs and showers.

3. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

DINING AREAS

Ensuring effective and quick table cleaning is crucial to make sure busy restaurants and cafés are not just pristine but inviting.

Falling short in hygiene standards has a negative impact on customer satisfaction and business revenue. Here are a few exceptional solutions to address common problem areas.

1. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as dining tables and bartops.

Dettol Multi Purpose Cleaner Citrus Refill is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

2. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning. Can be used on coffee machines, POS machines etc.

3. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Dettol Antibacterial Floor Wipes. Boasting 3x cleaning power, these thick and strong floor wipes rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.
