Why Foam Soaps Are Better Than Lotion Soap

36%
less product
required**

45%
less water
required during
handwashing**

30%
more hand washes
per litre**

It is vital that skin is kept in good condition as damaged skin is more susceptible to infection. Additionally painful, sore skin is less likely to be washed or sanitised as frequently increasing the risk of bacteria being spread

With this in mind our Foam Soaps are formulated with one of the mildest preservatives and added skin conditioners, making them pleasant on the hands.

** Independent tests show that washing hands with foam soap rather than lotion soap can reduce average water consumption by as much as 45% when using a modified hand wash approach of dispensing soap on dry hands and turning the tap on only when rinsing off (SC Johnson Professional sponsored study: How a simple change in the washroom can significantly reduce water consumption and associated costs. Durrant and McKay, 2011).

CLEAR FOAM

MAKE A SUSTAINABLE CHOICE FOR THE WASHROOM

Our SCJ Professional® Proline WAVE 1 litre soap dispenser is made with 70% Recovered Coastal Plastic sourced from a global partnership between SC Johnson and conservation organisation Plastic Bank™.

*Recovered Coastal Plastic is post-consumer recycled plastic collected on land within 31 miles / 50 km of an ocean so that it does not reach oceans or landfill, in countries with high volumes of uncollected plastic waste.

Plastic Bank™ is a social enterprise that empowers collection communities in vulnerable coastal areas in Indonesia, Philippines and Brazil to stop plastic waste before it reaches oceans or landfills, whilst improving the lives of those that collect it.

Each dispenser is made from the equivalent of 16 x 500ml Recovered Coastal Plastic bottles

The SC Johnson partnership with Plastic Bank™ supports opportunities for over **20,000 people** in vulnerable coastal areas.

CERTIFICATIONS

HACCP International Certified

This product and the dispensers it is to be used with have been certified by HACCP International as being food-safe hand hygiene products suitable for use in facilities that operate in accordance with a HACCP based food safety programme in Food Zone Classification SSZ (Splash or Spill Zone). This means products are suitable for use in food handling areas such as kitchens, production areas and processing areas, but not suitable for coming directly into contact with food or items that will touch food.

HACCP International's evaluation and certification is strictly confined to matters of food safety or the operation of a HACCP based food safety programme. Whilst all reasonable care is taken by HACCP International in its evaluation of the product(s) or services(s) described herein, HACCP International does not guarantee that every food safety risk in every application has been identified. No guarantee is offered or implied in the issuing of this statement.

ECARF Seal of Quality

This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for being well tolerated by sensitive skin. ecarf-siegel.org/en/about-seal

EU Ecolabel:
IE/030/003

Ecolabel Certified

Each product is certified to have a reduced environmental impact through its life cycle, from extraction of raw materials through to its production, use and disposal www.ecolabel.eu

BioCote® is a registered trademark of Biocote Limited. BioCote® silver ion-based technology effectively reduces bacteria, mould and fungi on the surface of BioCote® treated dispenser push buttons within as little as 2 hours and achieves up to 99.99% reduction over a 24 hour period. Efficacy is independently validated by ISO methods. BioCote® maintains its antimicrobial protection for the lifetime of the dispenser button and will not wear off, wash off or leach out. BioCote® technology is not a substitute for good hand hygiene practices.

SC Johnson Professional dispensers are guaranteed for their lifetime. Guarantee applies only in the European Union, United Kingdom, and Ireland and to dispensers exclusively using SC Johnson Professional products. Other terms and conditions apply: www.scjp.com/en-gb/guarantee

This product is designed for sensitive skin and formulated to reduce its allergenic potential*:

- Perfume-Free and Dye-Free - designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
- Skin Hypoallergenic - dermatologist tested to verify and confirm this product has very low allergenic potential
- ECARF certified - This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. See <http://Ecarf-siegel.org/en/about-seal>.

*The product does not guarantee a complete absence of risk of an allergic reaction. Allergy sufferers should always refer to the ingredient list before using the product.
