

Do you have any training resources to help dealers understand product use and placement?

Our team at Durable provides comprehensive training and ongoing support so your staff feel confident presenting and selling our range. Training covers product knowledge, sector placement, use cases and compliance.

We deliver training in flexible formats from in-person workshops and demo days to virtual sessions and digital resources making it easy to fit into your team's schedule. Our goal is to ensure dealers know not only how products work, but also where they deliver the most value, boosting customer satisfaction and sales.

We also offer two helpful product finders:
