

Unlock your Benefits as a Rack Armour® Distributor

**Beaverswood® -
The Official Rack Armour® Manufacturer**

EST. 1984

BEAVERSWOOD®

making the workplace work smarter

part of **IWS GROUP**
the Industrial Workspace Specialists

Introduction

Rack Armour® is the leading name in upright racking guards, providing the ultimate protection to safeguard warehouse racking from costly damage. With its double-patented protection and design, the agile polymer guard deflects, and then absorbs any remaining, energy from a collision, keeping the racking upright and functional.

Your company has the opportunity to unlock a key distributor status for Rack Armour®. This is a volume-based incentive, which will activate premium discounts and pricing support, giving you more profit.

Join the distributors who enjoy this status today – get in touch to discuss your account and how to activate the key distributor status.

Rack Armour® is a quick win - it's a simple product, easy to sell and will provide great value to your customers. What's more, the installation is a simple 'click on', either by hand or with the Rack Armour® tool, saving you time, and saving your customer money as opposed to metal guards that need to be fixed to the floor.

Benefits of being a Rack Armour® key distributor:

- Sell Rack Armour® at top-tier pricing
- Access to a wide range of marketing collateral to help you sell
- Dedicated support from an experienced team to drive sales
- Fast delivery to your customers and reduced lead times
- Hold stock or choose our drop shipping service
- Customise and brand Rack Armour® labels with your logo and company details
- Our installation team is on hand to install Rack Armour®
- Get listed as a key distributor and have your social channels promoted
- Key distributor status gives you badges to use on your marketing and communication channels, which highlights your credential as a key distributor of the global-leading rack guard

Rack Armour® Upright Racking Protection

- ✓ Rack Armour® reduces racking damage by as much as 80%
- ✓ Built to LAST - manufactured from ballistics grade plastic which deflects under impact
- ✓ Life span of 15+ years
- ✓ Patented design - shape of armour deflects and absorbs impacts
- ✓ Quick and easy installation with no fixings required - can be fitted in seconds
- ✓ Fits all makes of pallet racking and is transferable
- ✓ High visibility colour clearly gives safe working boundaries for MHE drivers
- ✓ Materials are non-toxic and fully recyclable
- ✓ Impervious to moisture, mold growth, corrosion, acid, alkaline and most solvents
- ✓ Can be used at temperatures as low as -40°C
- ✓ Impact tested to FEM 10.2.16 international standards

Reduce your costs and protect your racking with Rack Armour®

Rack Armour® has been a global success for over a decade. Its innovative design and functionality has revolutionised racking protection and provides a proven 80% reduction in damage levels.

Made from resilient, hard-wearing ballistics grade plastic, it can deflect impact in most cases. When a direct impact from a forklift occurs and cannot be deflected away from the rack by the outer shell, the interior foam absorbs the impact energy until it is diffused. The shape of the shell was designed to repel and deflect impacts away from the upright, reducing damage significantly. Rack Armour®'s closed-cell foam interior acting as a cushion between the racking and the plastic shell. This custom-engineered foam diffuses impact energy and diverts kinetic energy away from the racking upright. Reduced damage saves you money and time due to racking upright replacements.

Unlike metal barriers, Rack Armour® deflects and absorbs impact, reducing maintenance and repair costs

Its tight fit ensures that Rack Armour® can't be knocked off when brushed by pallet storage and retrieval by forklifts or other materials handling equipment.

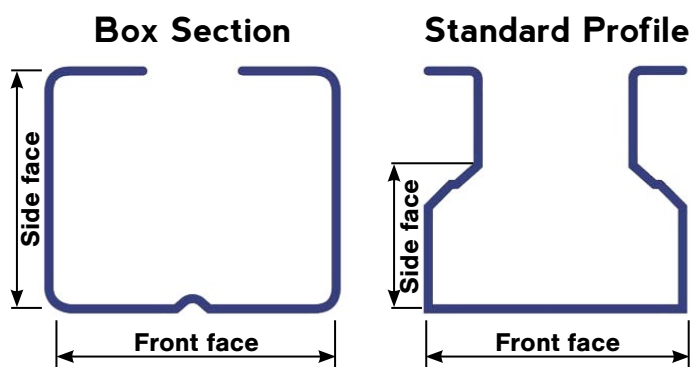

Rack Armour® has been tested to international standards, including FEM 10.2.16. The results demonstrate the Rack Armour® guard protected the upright from any noticeable damage when subjected to impact typical of an MHE operating along racking aisles.

Rack Armour® labels can be branded with your logo and company details - available upon request

Brand your Rack Armour® labels!

Please provide us with your logo, phone number, email address and website address and we can create personalised labels for you!

Identify your racking type and take measurements where indicated

Rack Armour®

Beaverswood® is your **ONE-STOP SOLUTION** for all your racking needs. Whether you're purchasing Rack Armour® for enhanced racking protection or looking to expand your accessory range, Beaverswood® provides everything you need to organise your racking efficiently.

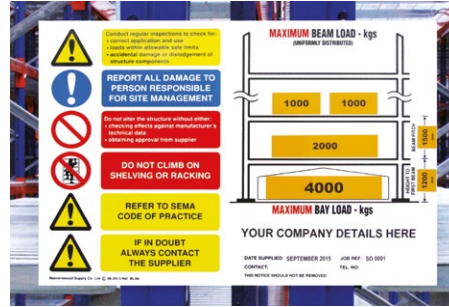

From Weight Load Notices and Labelling Solutions to Modulean® Rack End Boards and more, our high-quality accessories help improve warehouse safety, compliance, and productivity. Properly organised racking not only enhances workflow efficiency but also reduces the risk of damage and misplacement, ensuring a well-structured and professional storage system.

As your manufacturer, Beaverswood® offers premium products that will support you in delivering top-tier solutions to your customers, helping you grow your business with confidence.

What is different about Beaverswood®?

When you buy Beaverswood®, you buy once. Our products are known for their durability and reusability, making them a cost-effective and sustainable option. We don't just supply off the shelf products. As a manufacturer, we excel at bespoke solutions. In fact, 40 - 60% of all products we supply are bespoke requests, tailored to meet the unique needs of customers.

WEIGHT LOAD SIGNS

Providing crucial information on the maximum weight that can be safely supported by your racking structures.

CODE LABELLING

No warehouse label project too big or small! From consultation to design, to print and install - we cover it all!

TICKET AND LABEL HOLDERS

Protect those code labels with these premium quality ticket and label holders. Ideal for organising your racking, shelving, and storage locations.

These products are simple to install (thanks to self-adhesive and magnetic fixings) and deliver reusability and scannability to keep your operations running smoothly.

AISE & BAY MARKERS

These signs provide clear and visible identification of aisles and bays, making it easy to locate items and navigate the warehouse.

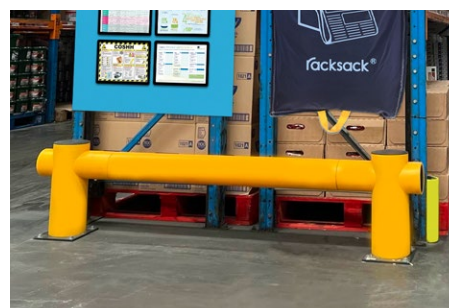

RACKSACK®

The original market leading solution for waste segregation in the industrial workplace. The racksack® family transforms daily waste management.

MODULEAN® RACK END BOARDS

Being 2000mm high x 900mm wide, these Rack End Boards have been designed to fit warehouse end-of-aisle racking systems.

IMPACT PROTECTION

An innovative range of impact protection and high-visibility safety products, designed to reduce accidents in the workplace.
