## EXTRA SAFETY AT WORK

### NS-PLXPROTECT

PLXPROTECT by NewStar is registered as EU-Design patent

There will be a **new way of coworking** because of Covid-19.  
Be ready and create a protected workspace with the NewStar **NS-PLXPROTECT** safety screen.

## Create a protected workspace with the NewStar NS-PLXPROTECT safety screens.

NewStar introduces a smart new solution for the new way of working; the NS-PLXPROTECT series. Society has changed since the Covid-19 pandemic and new measures are being taken to enable coworking as safely as possible in this 1.5/ 2-meter society.

The NS-PLXPROTECT products offer users additional protection from others, by increasing distance and creating a barrier in the workspace.

The NS-PLXPROTECT1 (for 1 monitor) and the NSPLXPROTECT2 (for 2 monitors) do not require fixing to the desk or ceiling – they can be easily attached to the existing desk mount, moving with the flat screen and the height-adjustable desk. The screens are made of 100% recyclable transparent acrylic to ensure a spacious feeling and has rounded corners. Additionally, the screens are equipped with 2 mounting points, so that they are adjustable in height along with the monitor(s).

The screens, unlike alternative solutions, do not take up extra space on the desk. The NS-PLXPROTECT1 is designed to be installed on a desk mount and the NS-PLXPROTECT2 can be mounted on 2 separate arms, gas-sprung arms, a crossbar and/ or a double monitor arm. Fun fact; the screens can also be used as a memo board for your to do lists and notes, using a whiteboard marker.

PLXPROTECT by NewStar is registered as EU-Design patent

The NS-PLXPROTECT products are designed to create extra safety within the workplace and designed for maximum comfort. The screens are very user-friendly, easy to install and can be cleaned easily.

- Extra protection • Hygienic/ Easy to clean • Moves with monitor/ sit-stand desk
- Two mounting points (height adjustment) • 100% Recyclable • Cable management
