A family company®

「FROM CLEAN TO CARE」

CARING FOR PEOPLE NOT JUST WORKERS

At SC Johnson Professional we help companies care for their workers as much as they care for their customers. We also believe that “care” does not involve just cleanliness.

WHAT IF WE COULD IMPROVE THE QUALITY OF LIFE AT WORK BY FOCUSING ON THE CARE OF YOUR WORKERS?

Every day workers run the risk of exposure to contaminants and conditions that are harmful to their skin. Over 34% of all cases of skin disorders come from the manufacturing sector¹, the largest number of cases. That’s why we offer a specialised skin care solution for this industry.

However, simply providing effective high-quality products isn’t enough. Thanks to over 80 years of experience in professional skin care, we know that workers are more inclined to use these products when they experience benefits immediately.

We focus not just on hand cleanliness but also on care. How products feel and smell, how easy and convenient they are to use, as well as how they perform, will all naturally encourage your employees to adhere to hygiene and safety protocols.

Our initial site surveys will ensure that the right products are located in the right place to optimise use, which along with our education and on-site signage will increase compliance, maintaining good skin condition.

POOR SKIN CONDITION - AN INVISIBLE THREAT

40%

of industrial workers will suffer a skin issue at some point in their working life²

On average, a reported case of dermatitis costs an employer

£6000³

60%

of employees feel more motivated to work for an employer who cares about their mental and physical health⁴

¹Europe Agency for Safety and Health at Work - Number of skin diseases by sector, EODS, Eurostat, 2005

²Europe Agency for Safety and Health at Work

³Diepgen T.T.L. et al; Contact Dermatitis 2013; 69-88-106.

⁴Mind Foundation study conducted in the UK in March 2013.

CREATE THE RIGHT ENVIRONMENT TO ENCOURAGE YOUR WORKERS TO GIVE THEIR BEST

87%
of workers who tried **Solopol® GFX** preferred it over their existing lotion hand cleaners

COMBINE AN OPTIMAL INDUSTRIAL SKIN CARE PROGRAMME - **CLEAN...**

- A specialist occupational range used before, during and after working hours, providing optimal performance with formulations proven to be mild for frequent use.
- Many products are backed by third-party certifications to verify their effectiveness, skin compatibility and reduced environmental impact
- Proven formulations that people like to use: our dispensers, product feel and smell make it easy for workers to follow skin care and safety protocols
- A unique range to meet all your skin care needs & adapted to a wide range of construction soils (dust, grease, adhesives...) and applications (rinse-free options, glove compatibility...)

DESIGNED FOR SENSITIVE SKIN

- Perfume-Free
- Dye-Free
- Skin Hypoallergenic
- ECARF certified

...WITH A CONCERN FOR THE QUALITY OF LIFE AT WORK OF YOUR WORKERS - **CARE**

We offer a dedicated range designed for sensitive skin:

- **Perfume-free and dye-free** - designed for people who are sensitive to perfumes and dyes and who prefer products which do not have these added.
- **Skin Hypoallergenic** - dermatologist tested to verify and confirm this product has very low allergenic potential and is designed for sensitive skin.
- **ECARF Certified** - This product meets the European Centre for Allergy Research Foundation (ECARF) criteria for skin tolerability. See <http://Ecarf-siegel.org/en/about-seal>.

Solopol® GFX
50%
less product required for an effective hand wash¹

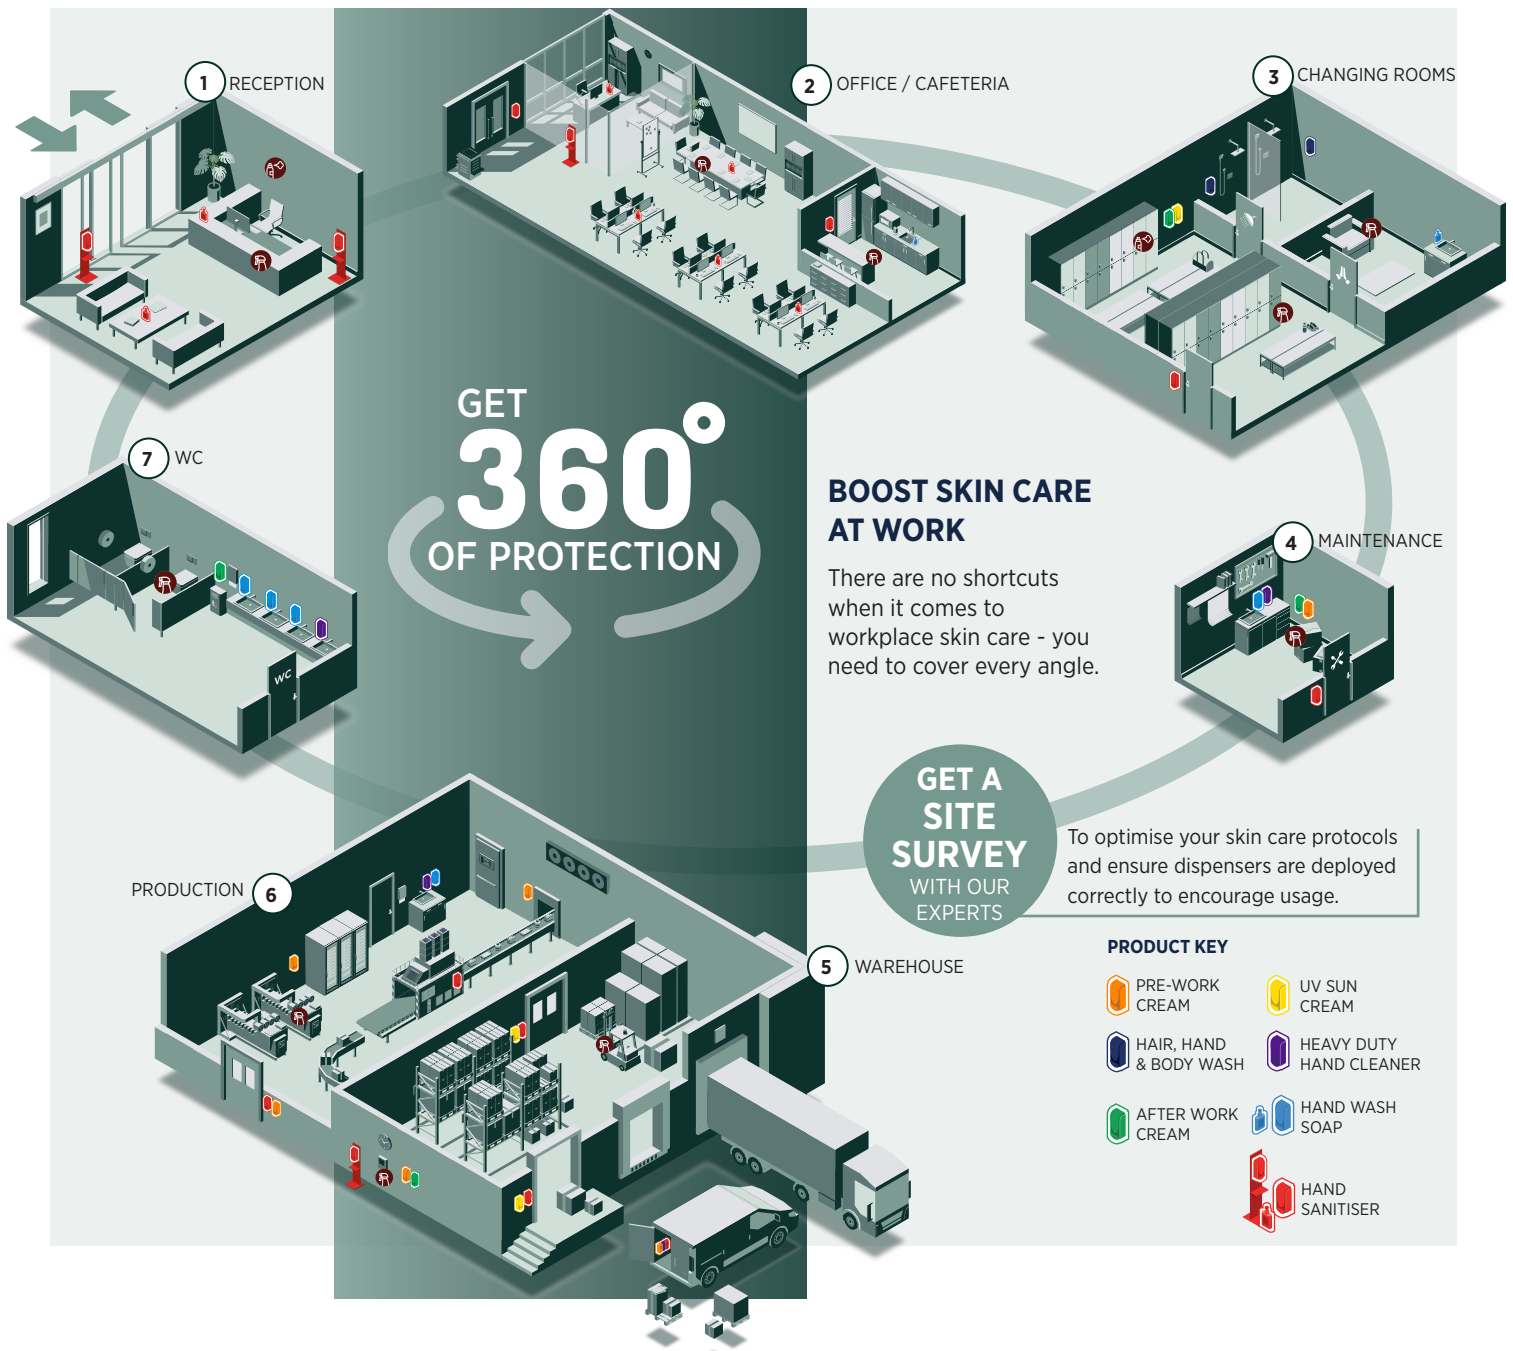

IMPLEMENT **COST-EFFECTIVE** SKIN CARE SOLUTIONS

- Highly efficient products to reduce waste and cost
- Given the frequent occurrence of skin disorders in industrial settings, a robust skin care programme can help minimise the risk of drawn-out compensation claims, costly court procedures and sick leave
- Our foams provide water savings. Using a foam soap compared to a lotion soap² leads to 45% less water needed during hand washing

¹Compared with traditional lotion heavy duty hand cleansers.

²SCJP sponsored study; Media4Change Ltd., How a Single Change in a Washroom can significantly reduce water consumption and associated costs, 2011.

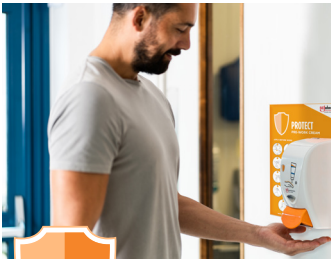

3 UNIQUE PROGRAMME ELEMENTS FOR MANUFACTURING

PRODUCTS

A LEADING RANGE OF SPECIALIST OCCUPATIONAL SKIN CARE PRODUCTS

PROTECT

Skin protection creams that are applied before working to reduce contact with contaminants and make cleansing quicker and easier

1

CLEANSE

An extensive range of hand and body cleaners to match the type of contamination encountered

2

SC Johnson Professional Cleanse Rating (from 1-5)

ABOUT SC JOHNSON PROFESSIONAL

SC Johnson Professional is a leading manufacturer of skin care, cleaning & hygiene products for away-from-home markets

- Part of SC Johnson, a family company at work for a better world led by the Johnson family for five generations
- 1,000 employees across five continents
- Manufactures specialist occupational skin care designed for any professional workplace (from industrial, food processing, healthcare, institutional to hospitality markets)
- Products used in over 80 countries by millions of people every day

SC Johnson Professional's sustainability performance at their Denby, UK site has been awarded a Gold Medal rating for 2022 by EcoVadis, an evidence-based corporate social responsibility (CSR) and sustainability ratings framework designed to measure and report on these factors. The rating puts the professional skin care, cleaning and hygiene solutions provider in the top 5% of peer companies rated by EcoVadis across 160+ countries for its efforts at their Denby, UK site.
