# KEY EDUCATION FACILITY MANAGEMENT CHALLENGES YOU MAY FACE

Education facilities face unique challenges, from stringent hygiene standards to budget constraints and the wellbeing of students and staff. At Reckitt, we offer simpler, proven hygiene solutions that meet these challenges, supporting a cleaner, more welcoming learning environment.

## STAFF/STUDENT NEEDS

- Hygienic cleaning to reduce the risk of illness among students and staff.
- Meeting strict hygiene regulations unique to schools.
- Achieving a cleaner environment that drives engagement and learning.
- Addressing cleanliness concerns of students, parents and staff.
- Presenting a positive image to protect the institution's – and your company's – reputation.

## EFFICIENT CLEANING

- Streamlining cleaning procedures to save time and resources.
- Adapting cleaning to dynamic office layouts and flexible work hours.
- Ensuring uniform cleanliness across multiple facilities and spaces.
- Handling increased hygiene needs for large office gatherings and corporate events.

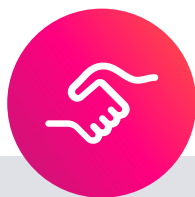

## MANAGING BUDGETS

- Maximising product performance while using less product.
- Minimising labour-related cleaning costs.
- Preventing staff turnover with superior cleaning products and processes.
- Reducing risks for cleaning staff through product choices.
- Mitigating time and efficiency pressures on staff.

## SOLVING CHALLENGES – THREE CORE PRINCIPLES

Our products embody three guiding principles: effective results, operational efficiency, and responsible delivery. These values empower you to uphold exceptional hygiene standards in educational environments, ensuring student and staff wellbeing and a positive institutional reputation.

### EFFECTIVE SOLUTIONS

- Exceptional performance.
- Data-supported effectiveness.
- Hygiene measures with direct benefits.
- Cleaner and more hygienic spaces.
- Better customer experiences.
- Reduction in the spread of viruses and bacteria.

### EFFICIENT OPERATIONS

- Portfolio of trusted brands.
- Easy and intuitive to use.
- Minimal training required to use.\*
- Simplifies cleaning routines.
- Improved cleaning staff productivity.
- Saving of both time and money.
- Inventory management made easier.

### DELIVERED RESPONSIBLY

- Demonstrating care for cleaning staff's well-being.
- Reduced chemical footprint.
- More sustainable packaging.
- Reduced waste and emissions.

# THE POWER OF OUR PROFESSIONAL PORTFOLIO EFFORTLESSLY DELIVERED

Trusted by millions of people all over the world, our effective solutions deliver superior results, enabling you to improve hygiene efficiency across all spaces. Peace of mind comes as standard.

## TRUSTED TO PERFORM IN EDUCATION SPACES

Reckitt's solutions, including Dettol and Harpic, deliver reliable and effective cleaning, ensuring educational spaces remain hygienic and inviting. Proven to eliminate 99.9% of viruses and bacteria, our products contribute to healthier environments and enhanced focus.

**Lack of cleanliness disrupts learning**

**88%**

88% of students report that a lack of cleanliness in their school is a distraction to studying.\*

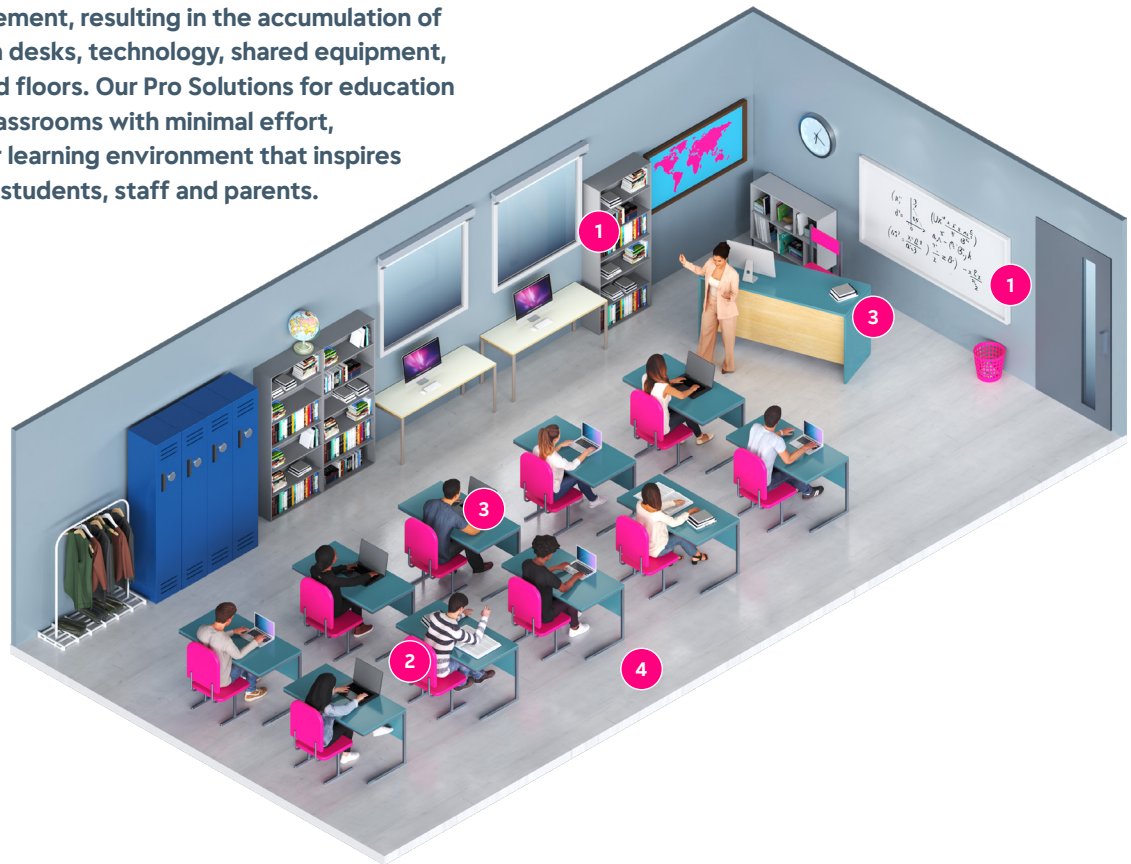

**Desks harbour illness-causing germs**

**20%**

In one study, 20% of desks harboured harmful germs with the potential to cause illness.\*\*

# CLASSROOMS

Classrooms accommodate a high volume of students with frequent movement, resulting in the accumulation of bacteria and dirt on desks, technology, shared equipment, and frequently used floors. Our Pro Solutions for education maintain cleaner classrooms with minimal effort, creating a healthier learning environment that inspires confidence among students, staff and parents.

## 1. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and efficient cleaning of frequently touched equipment like keyboards and laptops, addressing the multitude of germs they may carry.

## 2. Soft Surfaces

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria on soft surfaces like sofas, cushions, chairs, armchairs etc.

## 3. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as desks and tables.

**Dettol Multi Purpose Cleaner Citrus Refill** is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

## 4. Hard Floors

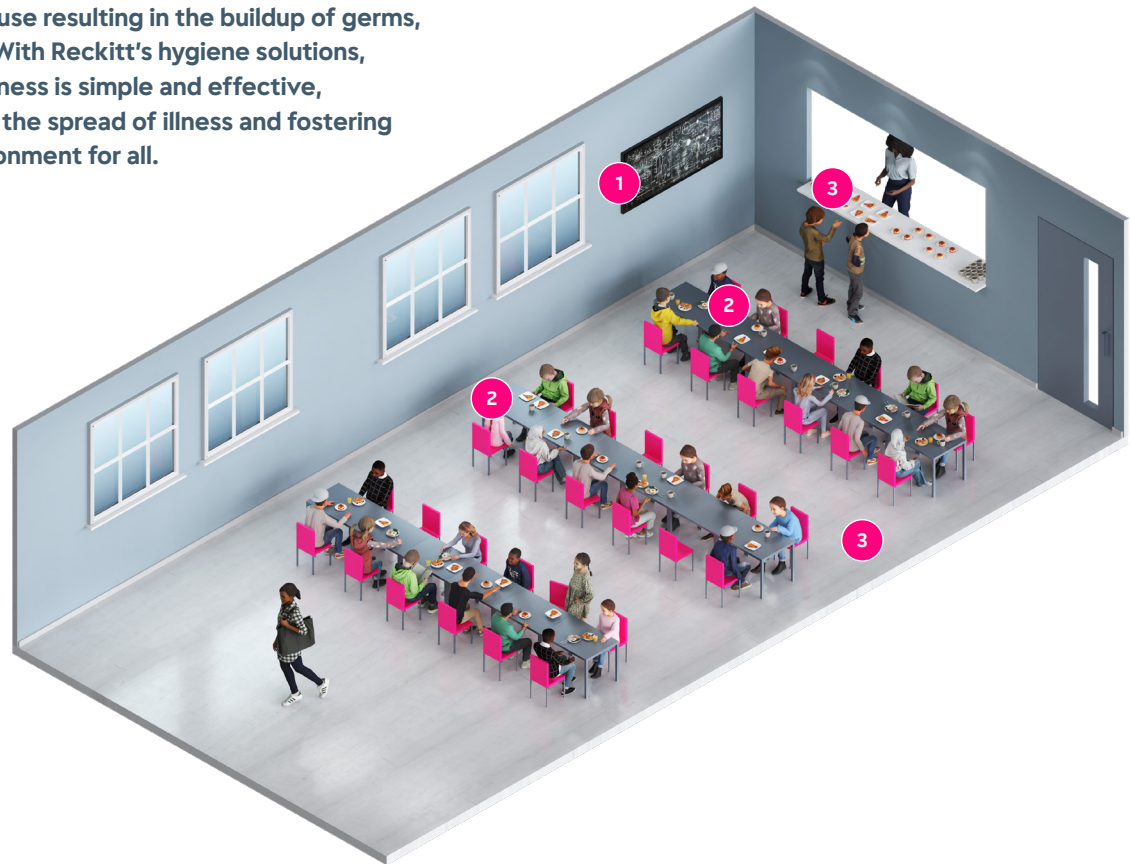

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Boasting 3x cleaning power, **Dettol Antibacterial Floor Wipes** are thick and strong wipes to rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

# COMMUNAL SPACES

Communal spaces in schools, colleges and universities experience heavy use resulting in the buildup of germs, dirt, and bacteria. With Reckitt's hygiene solutions, maintaining cleanliness is simple and effective, helping to prevent the spread of illness and fostering a welcoming environment for all.

## 1. Vertical & Irregular Surfaces

Use **Dettol Anti-Bacterial Wipes** for quick and effective cleaning on vertical and irregular surfaces. No need to spray first – just wipe and achieve quick, fast and effective cleaning. Can be used for boards, laptops, trays etc.

## 2. Hard Surfaces

Apply **Dettol Multi-Purpose Cleaner** to effectively eliminate 99.9% of viruses and bacteria on hard surfaces such as desks and tables.

**Dettol Multi Purpose Cleaner Citrus Refill** is ready in seconds to kill 99.9% bacteria, whilst using 75% less plastic vs our 750ml trigger.

## 3. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Boasting 3x cleaning power, **Dettol Antibacterial Floor Wipes** are thick and strong wipes to rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

# WASHROOMS

Heavy use of student and staff washrooms can result in problems such as limescale, stubborn stains, and germs in toilet bowls and rims. Our products make maintaining cleanliness easy, eliminating tough stains and odours while ensuring washrooms are hygienic, fresh and comfortable for everyone.

## 1. Toilet Bowls, Cubicles & Urinals

Use Harpic Power Plus Toilet Bowl Cleaner for removal of the six most common toilet stains: limescale, soil, urine, rust, dirt and vomit. With its powerful formula Harpic is 10 times more effective than bleach on limescale and stain removal.

Use Dettol Power & Pure Bathroom Cleaner to kill 99.9% of viruses and bacteria on basins and taps\*, giving your washroom a sparkling clean and a refreshing fragrance.

Use Dettol Big & Strong Bathroom Wipes to help you tackle various dirt, spills and stains for a more hygienic environment in washrooms. No need to spray first – just wipe and achieve quick, fast and effective cleaning.

## 1. Toilet Bowls, Cubicles & Urinals

The New Harpic Hygienic Fresh Sticker Adhesive Toilet Block sticks discreetly to the toilet bowl and provides a boost of scent with every flush up to 2 weeks of use.

The Harpic Power Plus Deep Cleaning Toilet Tabs reaches where the brush can't and removes 100% of limescale while killing 99% of bacteria. It is suitable for use in septic tanks as well.

## 2. Tiles & Hard Surfaces

Dettol Mould and Mildew Remover is formulated with a powerful bleach to be tough on mould, limescale and soap scum and suitable to use on ceramic tiles, grout, windows, stainless steel, chrome, acrylic bathtubs and showers.

## 3. Hard Floors

Use Dettol Antibacterial Multi-Action Cleaner to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

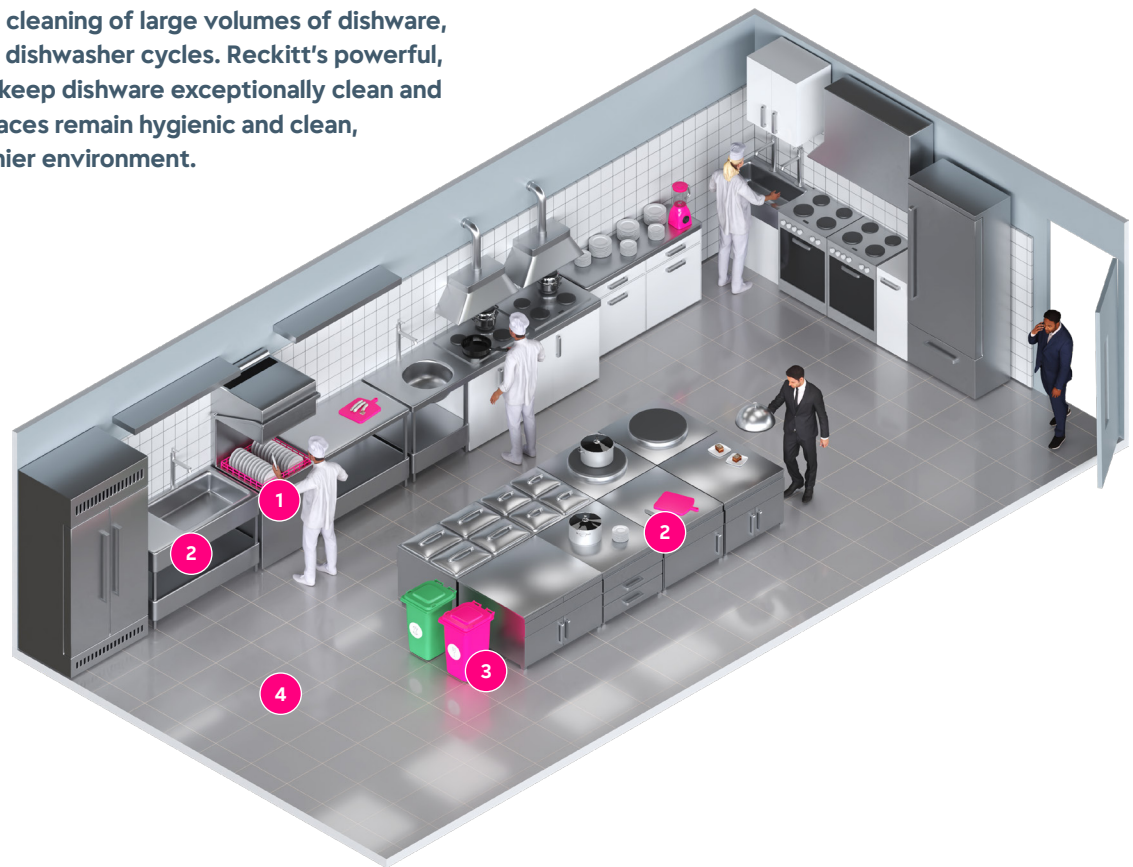

Boasting 3x cleaning power, Dettol Antibacterial Floor Wipes are thick and strong wipes to rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.

\*Not compatible with copper.

# KITCHENS

Professional kitchens in educational institutions require quick and efficient cleaning of large volumes of dishware, especially on short dishwasher cycles. Reckitt's powerful, efficient products keep dishware exceptionally clean and ensure that all surfaces remain hygienic and clean, supporting a healthier environment.

## 1. Dishwashers

Use **Quantum Professional Dishwasher Detergent & Glasswash Detergent** to remove the five most common dishware stains\*, even on short cycles.

Use **Quantum Rinse Aid** to enhance your dishwashing performance. It will tackle wet spots and speed up the drying process, giving 5-star service results.

**Quantum Professional Dishwasher Salt** is designed for dishwashers to soften water and protect them from the negative effects of hard water. Without Dishwasher Salt, hard water can leave limescale residues in your dishes.

## 1. Dishwashers

**Quantum thermorform tabs** are effective at removing the top 5 stains in your kitchen.\* There is no need to pre-rinse, saving you time, money and energy.

## 2. Hard Surfaces

Use **Dettol Power & Pure Kitchen Spray** to ensure 100% grease removal and disinfecting power, leaving your kitchen hygienically clean and sparkling.

## 3. Dustbins

Apply **Dettol Disinfectant Spray** to efficiently and effectively kill 99.9% of viruses and bacteria present on dustbins and trashcans in the kitchen.

## 4. Hard Floors

Use **Dettol Antibacterial Multi-Action Cleaner** to combat constant foot traffic on hard floors and maintain a clean, hygienic environment for your employees and customers. Its powerful formula is tough on dirt, soap scum and grime.

Boasting 3x cleaning power, **Dettol Antibacterial Floor Wipes** are thick and strong wipes to rapidly cut through grease, and dirt for dazzlingly clean floors. This formula is also proven to kill 99.9% of bacteria including antibiotic-resistant bacteria, such as E. Coli.
